1.

2.
(a) No
(b) No

3.

(a) Yes

(b) Yes

(c) Yes

(d) Yes

4

a) Yes

b) No, list cannot minus iterator with iterator. That only for random access iterators

c) Yes

5. No it wouldn't work. The while loop is while (prev != nullptr), but inside the loop you do prev -> next -> data so you try getting the data from nullptr which is error. It should be while (prev -> next != nullptr) so you stop before getting to the nullptr.
